

# CSPI 2021 – Thank you for visiting us!

**2021/5/16**

During the trade show, we presented our drilling tools like casing, swivel, bits, which are used in the spring drifters.

CSPI was a good opportunity to meet each other after a long time as well as to meet new people. We are very thankful to have seen you all in our booth, to have consolidated long-lasting business relationships and to have developed new business contacts.
